Letter of Recommendation

Dear admission officers

This is Dr. Ce Li from University of Chinese Academy of Sciences and I am writing to you in recommendation of Shuo Liu to assist you with your consideration of his application to your prestigious program. I came acquainted with him when he became my assistant for a research program. Hence I am quite confident to say that I can evaluate his performance and personality well. As one of my best students, Liu definitely deserves a higher level of education and professional guidance. Therefore, it is my great pleasure to recommend you this promising young man.

At the beginning of the project, Liu first got to learn the applications and processes for the experiments as well as the research paradigm. By browsing relevant materials and related references, and grasping the general contents of the research project, he started to participate in the experiment test the "Kalman filtering - Object Route Prediction (KP-ORP)" by using the research methods including Gaussian Model, Kalman Filtering etc. and eventually gained the results of the advantages and achievements of the KP-ORP as well as its shortcomings.

Shuo Liu demonstrated his outstanding ability of information gathering and screening when he was helping out with the project. His ability of embracing new things and diligent attitude towards researching let him easily overcome obstacles while working since the project we were working on. Through his independent research and intensive reading, there is no doubt that Liu laid a solid and comprehensive intellectual groundwork of his further studies.

I certainly believe that with his enthusiasm of research, industrious attitude and his innovative and critical thinking, he will succeed in any endeavor put in front of him and will excel among other students. I do hope that you can take his application into consideration and kindly offer him the opportunity to pursue his dream. If you have any questions in regard to this candidate, please feel free to contact me directly.

Sincerely yours
